Child Cross? Feverish? Sick?

A cross, peevish, listless child, with coated tongue, pale, doesn't sleep, eats sometimes very little, then again ravenously; stomach sour; breath fetid; pains in stomach, with diarrhea; grinds teeth while asleep; and starts up with terror—all suggest a Worm Killer—something that expels worms and almost every child has them. Kickapoo Worm Killer is needed. Get a box to day. Start at once. You won't have to wait, as Kickapoo Worm Killer is a candy confection. Expels the worms, the cause of your child's trouble. 25c.
